## CAUTION

Any activity involving motion, rotation or height creates the possibility of serious injury including permanent paralysis and even death from landing or falling on the neck, head or other parts of the body. Gymnastic mats and floors cannot and do not eliminate this hazard entirely. You still assume a risk of serious injury when using this equipment.

Before each use, always check apparatus for damages or wear. If in doubt, do not use the product. This gymnastic apparatus can move during use. Always check for proper positioning of the product before use.

①

Prior to opening the cover completely, make sure to have the denim side facing up. Lay out flat and open entirely.

②

Insert a partially inflated air product into the bottom (vinyl side) of the cover.

③

Make sure to align the valve with the valve opening/cover.

**NOTE:** Tumbl Trak equipment is not recommended for the use in **Parkour/Free Running** related activities.

④ Fold over the cover and secure the Velcro on all three sides.

If the corners do not close, deflate the unit and close up the corner. It is okay if the corner is somewhat folded. Once it is fully inflated and used a bit, it will even out.

⑤

⑥

Inflate the unit through the valve flap to the desired tension. Use a hand pump to top off.

Be sure to seal the valve flap to prevent any injuries.

⑦

—⑧ Enjoy!

# Air Products Complement...

The following accessories can be purchased from Tumbl Trak's website at [www.tumbltrak.com](http://www.tumbltrak.com) or by calling 1-800-331-4362.

## Mini Ramp

- This ramp is perfect for creating a "vault board" with the Jr. Sweet Spot.

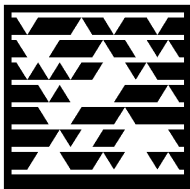

## Pit Pillow

- This is a great topping mat to place on a landing mat, in a pit or on top of an Air Floor.

## Vaulting

- Use a Sweet Spot, Jr. Sweet Spot or Launch Pad on top of the table, on top of the vault board or as a hand mat.
